Identifying Compliant Lintels

Compliance and quality are a top priority at Galintel.

Our range of Steel Lintels are designed and manufactured to the highest standards and comply with the labelling and R3 durability requirements of AS2699.3:2020 (Built-in components for masonry construction, Part 3: Lintels and shelf angles (durability requirements)).

The above standard is referenced for lintels in the 2022 National Construction Code (NCC) which will be adopted by the states and territories on 1 May 2023.

Not all galvanised steel lintels are Galintel®. Could you be using non-compliant lintels that don't meet Australian Standards?

Learn more about how to spot a compliant steel lintel by visiting the link below or contact our team for a lintels training session.

REMINDER

Current Price Lists

To enable efficient order processing and service please ensure orders sent to Galintel are using the most up to date price list - effective 9 January 2023.

Should you be missing a copy or have any queries please contact your Galintel Representative or reach out to our Customer Service team via freecall **1800 LINTEL** or email galintel@nepean.com.

UPDATES

Service & Delivery Updates

Order Cut-off Times for Local Deliveries

Orders must be received via email by 11:00 am for despatch the following working day. Orders received after this time may not be processed for despatch until the following day. Please contact Customer Service for stock availability and delivery lead time queries.

ANZAC Day Closure

Galintel will be closed on Tuesday 25th April to observe the ANZAC Day public holiday. We will reopen on Wednesday, 26th April, with our usual trading hours. Our customer service team will be available to take enquiries and orders on Monday 24 April.

Stocktake

On Thursday 27th and Friday 28th April we will be undergoing stocktake at our warehouses and manufacturing facility with no despatch during this time, however, our team will be available to support any enquiries you may have.
